

What if

you could prevent her from getting Alzheimer's

or diabetes

or breast cancer?

In just a few short years it's possible your doctor could predict and prevent illness based on the analysis of a few drops of blood.

JOIN US FOR A SPECIAL PRESENTATION

THE FUTURE OF MEDICINE

WITH DR. LEROY HOOD

Leroy Hood, MD, PhD, is the co-founder and president of the Institute for Systems Biology in Seattle. Rolling Stone Magazine recently named him one of 100 Agents of Change for his work in DNA analysis that will fundamentally change the nature of health care.

This presentation is sponsored by the Medical Staff of Cascade Valley Hospital to thank the community for your support as we celebrate our 100th year with the opening of a new building.
